## Experience

### Gendac Software Engineering (Pretoria) – UI/UX Developer

UI/UX Design and front-end development for both mobile and web applications. Developed using the Angular framework with both JavaScript and TypeScript. Mobile development using Angular Ionic framework for IOS and Android.

Designs and prototypes using Adobe Suite programs – specifically Photoshop, XD and Illustrator. All development and designs take place in a SAFE Agile Scrum process.

Years: January 2019 – Present

### Toeka se Dae (Bela Bela) – Part Time Manager

Weekend and University holiday management of a restaurant. This included being a cashier, taking queue and helping out waiters when needed.

Years: April 2015 – January 2019

References: Piet Erasmus: 082 445 5019

### The Playhouse H.Q (JHB) – Executive Assistant

My job included: Helping out with planning, scripting and filming of multiple television shows which aired on ASTV (OVHD). Later on I worked as a cinematographer for some of the television shows.

I also ran a research project in conjunction with ITECH and the department of health where actors were trained and sent into rural clinics for data gathering.

Years: April 2014 – November 2014
